Cover 100% of Your Child's University Education Costs

The Edmonton MultiPlex Limited Partnership (LP) is a unique investment designed to meet the growing demand for student housing near the **University of Alberta**. It offers an opportunity for parents of international students to **offset the high costs** of education through **steady rental income** and **capital appreciation** over a 5-year period.

Investment Overview

- **Minimum Investment**: $125,000 CAD
- **Project Focus**: Development of 8-plex student housing near the University of Alberta
- **Returns**: Quarterly rental income distributions and capital gains upon sale/refinancing at the end of the 5-year term
- **Return of Capital**: 73.2% of the invested capital is returned by Year 2, providing early liquidity
- **Exit Strategy**: Investors benefit from projected significant capital gains from property sale/refinancing

Education Costs vs. Investment Returns

Sending a child to the **University of Alberta** as an international student is a significant financial commitment. Parents can expect to spend between **$245,000 to $280,000** over a 4-year degree, including tuition, fees, and living expenses. For the purposes of our example and analysis, we will assume the average total cost to be $260,000 or $65,000 ($38k Tuition and University Related Costs and $27k for Living Expenses) per year for the 4-year enrolment period. This LP investment allows parents to **recoup 100% of these costs** through **rental income** and **property appreciation**.

How the LP Investment Works

A **$125,000 investment** in the LP can generate **$267,625** over 5 years, fully covering education costs while creating additional financial growth. Here's how the projected returns break down:

Projected Cash Flow from a $125,000 Investment

Year	Forecasted Net Rental Income	Expected Return of Capital	Projected Proceeds from Sale	Total Cash Flow
Year 1	$500	-	-	$500
Year 2	$2,625	$91,500 (73.2%)	-	$94,125
Year 3	$4,250	-	-	$4,250
Year 4	$6,500	-	-	$6,500
Year 5	$8,750	$33,500 (Remaining)	$245,000 (Sale)	$287,250
Total				**$392,625**

Education Costs vs. Investment Returns

This investment is designed to fully offset your child's education costs while also creating a net financial gain.

Year	Investment Capital (Incl. Return of Capital)	Annual University Costs (Tuition + Living)	Anticipated Investment Return (Annual Income and Capital Appreciation)	Net Cash Difference
Year 1	-$125,000	$0	$500	-$124,500
Year 2	$91,500	$65,000	$2,625	+$29,125
Year 3		$65,000	$4,250	-$60,750
Year 4		$65,000	$6,500	-$58,500
Year 5	$33,500	$65,000	$253,750	+$222,250
Total Financial Gain	-	**-$260,000**	**+$267,625**	**+7,625**

Key Benefits of the Investment

- **Offset Education Costs**: Rental income and capital appreciation can fully cover tuition, fees, and living expenses for your child's 4-year degree.
- **Early Liquidity**: **73.2% of your capital** is returned by Year 2, providing flexibility to manage ongoing university expenses.
- **Steady Cash Flow**: Quarterly rental income distributions help cover ongoing education costs like housing and groceries.
- **Long-Term Wealth Growth**: By Year 5, the property sale generates significant capital gains, potentially creating wealth beyond your child's education needs.
